Elo Launches EloPOS Pack 2 Delivering Exceptional Speed and Power

The next-generation EloPOS Pack 2 is up to 4.8x faster, offering businesses new levels of performance and efficiency.

Elo, a world leader in point-of-sale systems, today announces the launch of the next generation of its popular POS compute system. The new EloPOS Pack 2 is up to 5.1 times faster than typical competitors*, supports AI processing, includes 14th-generation Intel Core Processors, and offers 17 I/O ports, delivering exceptional performance and versatility for businesses.

Powered by 14th-generation Intel Core Processors from the Raptor Lake series, Intel vPro, and Windows 10 OS, the EloPOS Pack 2 provides the tools needed to power the largest retailers in the world. Designed with AI processing in mind, the system also features an optional Hailo Neural Processing Engine capable of executing 50 Trillion Operations Per Second (TOPS).

Elo Touch Newsletter January 2025

To ensure maximum compatibility, the EloPOS Pack 2 pairs seamlessly with any of Elo's touchscreen monitors, creating an ideal solution for both attended POS lanes and self-checkout systems. Its 17 I/O ports provide robust connectivity for all necessary peripherals. These include a USB-C full-featured slot, a Gigabit LAN port, six USB 3.0 ports, an HDMI port, one 24V powered USB port, five 12V powered USB ports, a 12V/24V Cash Drawer, and a 3.5mm headset jack. Whether connecting printers, cash drawers, barcode scanners, or payment devices, the EloPOS Pack 2 ensures a seamless experience for businesses and their customers.

The EloPOS Pack 2 features a sleek, streamlined design that is ideal for compact spaces. Its smaller footprint and lower weight compared to traditional POS systems allow it to be mounted discreetly under the counter or within self-checkout cabinets.

For added flexibility, the EloPOS Pack 2 is pretested with Linux SuSE, Ubuntu, and Red Hat operating systems, ensuring a highly versatile solution for diverse sales environments. Customers can also benefit from EloCare, which offers advanced unit replacement, extended warranty, and professional support services.
