Compact and Robust Box PC for Industrial Edge Computing and IoT Applications

Axiomtek's eBOX100A comes standard with the Intel® Processor N97 and offers Intel Atom® x7211E or Intel® Core™ i3-N305 for project needs.

The eBOX100A has a wide operating temperature range of -40°C to +60°C, making it suitable for use in challenging industrial environments or factory settings. It also features a 9-36 VDC input with ignition control and a Phoenix-type power connector, ensuring flexibility in power management.

Ultra-Compact and Fanless Network Appliance Ideal for Small Business Network Security Solutions

Powered by the Intel® Celeron® processor N3350, the NA346B combines performance with exceptional energy efficiency. With software-defined flexibility, customers can configure the device as a firewall or router, tailoring it to their unique networking needs.

Overall, the NA346B delivers reliability, efficiency, and cost-effectiveness in a compact form factor, making it an excellent choice for secure connectivity solutions in space-constrained environments.
